## EXPERIENCE :

### CUBETA | Damascus

- Full Stack developer, Team Lead Sep 2020 - Present  
Co-founded a software company specializing in web and mobile app development. With the help of our team, we have been able to provide excellent services and build a reputation as a reliable partner for an international clientele.  
Responsible for managing the overall operations of the company. This includes delegating and directing agendas, increasing profitability, managing company structure and strategy, and communicating with clients.  
In addition to taking on technical responsibilities wherever required.

### BIGBANG ITS | Damascus

- Software Development Team Lead Full-time Feb 2020 - Nov 2020  
Handled the management of multiple teams, guiding developers to deliver high-quality results. Taking part in the recruitment process, and being the mediator between the development team and upper management.  
Overseeing, developing, and updating the development stack and workflow, implementing enhancements when possible.
- Software Developer Full-time Sep 2019 - Feb 2020  
Took part in designing and implementing web applications of varying degrees of complexity from simple static landing pages to cms-based websites and platform-based e-commerce to new and challenging custom solutions, all while adapting quickly to the task at hand and being a team player.
